

GROWER'S ALLY® SPIDER MITE CONTROL

KILLS AND REPELS SPIDER MITES

MAXIMIZE YIELDS

Grow healthier cannabis and hemp with Grower's Ally Spider Mite Control. Kills and repels common soft-bodied insects, including adult and nymph spider mites and russet mites.

**25(b)
EXEMPT**

ZERO POLLUTANTS

Tests clean and contains no residual solvents, no synthetic pesticides and no heavy metals. Exempt from EPA registration under FIFRA 25(b) and OMRI Listed® for use in organic gardening.

HARVEST SAME DAY

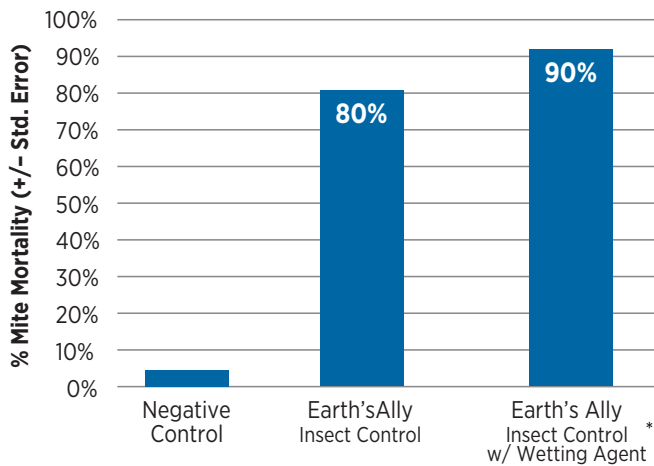

Can be safely applied through all stages of plant growth, from clones through the flowering cycle when many problems occur. Trusted by large scale growers and suitable for use in all cultivation facilities.

BENEFITS

- OMRI Listed®
- FIFRA 25(b) Exempt
- Zero REI
- No PPE Required
- Bee Safe®
- No Reported Phytotoxicity
- Made in the USA

RESULTS

PROVEN 90% SPIDER MITE MORTALITY IN LABORATORY TESTS

Treatment - 1% (128 fl. oz./100 gal.)
*Brandt Organics Ag Aide at 8 fl. oz./100 gal.

INGREDIENTS

ACTIVE INGREDIENTS

- Rosemary Oil 50.00%
- Clove Oil 3.00%
- Peppermint Oil 1.95%

INERT INGREDIENTS

- Glycerol Monooleate
- Ethyl Lactate
- Ascorbyl Palmitate

MODE OF ACTION

The botanical oil formulation in Grower's Ally Spider Mite Control overstimulates and disrupts the pest's nervous system, leading to paralysis. The oils block air from the pest spiracles, preventing them from breathing and causing suffocation on contact.

Rosemary oil has strong repellent properties. Any insect not contacted by direct spray will quickly leave the treatment area. When used as a preventative treatment, the rosemary oil works synergistically with the plant to ward off insects.

DIRECTIONS

PREVENTATIVE CARE

- Prior to mixing, shake the concentrate well.
- Dilute the concentrate at 0.25% mix rate or 10 mL/gal.
- Using an atomized sprayer, apply a fine mist to the stems and leaves, including undersides.
- Thoroughly cover the plant until there is runoff.
- Only apply when the temperature is below 90°F.
- Spray every 7 days to keep plants healthy.

SUGGESTED USE

- Apply to outdoor crops in the early morning or late afternoon. Avoid application during the hottest part of the day.
- When using indoors, lights and fans should be brought back on 2-3 hours after application.

FOR INFESTATIONS

- Treat at first sign of infestation.
- Prior to mixing, shake the concentrate well.
- Dilute the concentrate at 1.00% mix rate or 40 mL/gal.
- A using an atomized sprayer, apply a fine mist to the stems and leaves, including undersides.
- Thoroughly cover the plant until there is runoff.
- Only apply when the temperature is below 90°F.
- Spray every 3-5 days, as needed.
